Washington, D.C. 20036

AUEC-NUEA DEFINITIONS

Program Categories

Class: A group of students which meets regularly but which has intervening time periods between meetings. A class is given face to face instruction by a teacher or lecturer.

Conference, Institute, Workshop: An organized instructional program which meets for three hours or more in continuous session except for approved free periods for coffee, meals and afternoon and evening recesses.

Correspondence Course: A program conducted primarily by written communication.

Credit Categories

Degree Credit Program: A college level course that carries credit toward an associate, bachelor's or higher degree or equivalent recognition, whether in the given institution, or by transfer to another institution.

Undergraduate: A college level course that carries credit toward an associate or bachelor's degree or equivalent recognition, whether in the given institution, or by transfer to another institution.

Graduate: A college level course beyond the bachelor's degree which accomplishes one of the following purposes:

1. credit toward a master's or doctor's degree or equivalent recognition, whether in the given institution, or by transfer to another institution;
2. credit toward an advanced post-graduate certificate, diploma, or other post-graduate designation, whether in the given institution, or by transfer to another institution;
3. post-graduate professional training for career advancement or other similar purpose.

Non-Degree Credit Program: A college level course that is creditable toward a certificate or diploma but not toward an associate, bachelor's or higher degree.

Non-Credit Program: A college level course which carries no credit toward a certificate or diploma or associate, bachelor's or higher degree.

Registration and Student

Registration: One enrollment in a single course. Registrations refer only to the number of enrollments; they do not refer to the individual persons.

Student: The individual person registered in a course. A student may account for more than one registration.

ACADEMIC SUBJECT CATEGORIES

Academic subjects are grouped under basic headings modeled after those used by the U.S. Department of Health, Education and Welfare. Because of the need for limiting basic categories many traditional and important subjects, e. g. Architecture, are catalogued under the heading "Other."

The basic groupings with examples of subjects are as follows:

Agriculture: Agronomy, Animal or Dairy Husbandry, Forestry, Horticulture, Plant Pathology, Soils, etc.

Behavioral Sciences: Anthropology, Economics, History, International Relations, Political Science, Psychology, Social Welfare, Sociology, etc.

Biological Sciences: Anatomy, Bacteriology, Biology, Biophysics, Entomology, Zoology, etc.

Business: Accounting, Business Administration, Real Estate, Security Investments, etc.

Education: Counseling and Guidance, Elementary Education, School Administration, Speech Correction, etc.

Engineering: Aeronautical Engineering, Civil Engineering, Electrical Engineering, Mechanical Engineering, etc.

Health Professions: Dental Hygiene, Medicine, Occupational Therapy, Public Health, etc.

Humanities: English, Fine Arts, Foreign Languages, Literature, Philosophy, Religion, etc.

Law: Constitutional Law, Estate and Gift Taxation, Legal History and Jurisprudence, etc.

Physical Sciences: Astronomy, Chemistry, Mathematics, Meteorology, Physics, etc.

Interdisciplinary: Two or more basic groupings; an example of an "Interdisciplinary" program might be a conference on air pollution which addressed the problem in terms of its legal, scientific, behavioral and health aspects.

Other: See above.
